

Seventh Grade Entry

IMMUNIZATION REQUIREMENTS

Effective May 7, 2007, a student entering the 7th grade must have proof of receiving the following immunizations:

- **3 Hepatitis B**
- **1 Tetanus/Diphtheria/Pertussis (Tdap) booster**
 - Td vaccine can be accepted to satisfy the Tdap requirement.
- **1 Varicella - (Chickenpox)**
 - Previous history of chickenpox is OK; parent must sign verification statement on school immunization record
 - If student is already 13 years old, 2 doses are required.

This is in addition to other immunizations which should have already been completed (i.e. 5 DTAP, 4 Polio, 2 MMR).

A child may be allowed to attend school “conditionally” if at least one doses of each required immunization has been completed and the child is currently on schedule to finish the rest. The remaining immunizations must be completed on schedule for the child to remain in attendance.

An appropriate Utah Department of Health Exemption form must be completed for those children who claim exemption to immunization for medical, religious, or personal reasons.
